

## Example of View on SNL Subscription Page

### Lessons Learned

- ☐ Biological Agents  
Includes such topics as: bloodborne pathogens, dangerous plant or animal life, hantavirus
- ☐ Confined Space Entry  
Includes such topics as: injury and fatality prevention activities
- ☐ Electrical Safety  
Includes such topics as: recalls, work practices and procedures, power strips, GFCIs, batteries, high voltage, electrical shocks
- ☐ Emergency Preparedness  
Includes such topics as: evacuation, emergency plans, drills/exercises, emergency response
- ☐ Environmental Protection  
Includes such topics as: pollution prevention, recycling, spills
- ☐ Firearms and Explosives  
Includes such topics as: bomb threats, firearms and explosive safety, ordnance, explosive devices
- ☐ Fall Prevention  
Includes such topics as: recalls, ladders, scaffolds, elevating work platforms, and fall protection
- ☐ Fire Protection  
Includes such topics as: hotwork safety, welding, sprinkler systems, fire alarms, fire extinguishers
- ☐ Health Hazards  
Includes such topics as: carcinogens, toxic or highly toxic agents, reproductive toxins, irritants, chemical safety
- ☐ Injury Prevention

Includes such topics as: Injury Prevention Tip of the Month, injury prevention, training, other

- ☐ Lockout/Tagout  
Activities involving work on energized equipment
- ☐ Office Safety  
Includes such topics as: office ergonomics, office injury prevention methods
- ☐ Other Industrial Safety  
Includes such topics as: cranes, power tools, forklifts, machine guarding, wall penetrations, excavations, trenching, student safety
- ☐ Packaging and Transportation  
Includes such topics as: on-site or off-site transportation, DOT compliance
- ☐ Personal Protective Equipment (PPE)  
Includes such topics as: eye, face, respiratory, hand, head protection, and protective clothing
- ☐ Physical Hazards  
Includes such topics as: flammable liquids, non-ionizing radiation, noise, lasers, heat stress
- ☐ Pressure Safety  
Activities involving the design, installation, operation, maintenance or any other work on pressure systems
- ☐ Property Damage  
Includes such topics as: damage to structures from weather phenomena
- ☐ Radiation Protection  
Link to Rad Protection's LL Homepage; includes such topics as: nuclear criticality, loss of control of radioactive sources or material, area monitoring, procedure/TWD violation, posting/labeling violation, legacy material, training, other

- ☐ Risk Management  
Includes such topics as: NEPA, hazard identification and analysis
- ☐ Security
- ☐ Traffic Safety  
Includes such topics as: powered carts, motorcycles, bicycles, vehicles, parking, pedestrian safety
- ☐ Waste Management  
Includes such topics as: hazardous waste, low-level radioactive waste, mixed waste
